### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species for the Surgical Fastener Device:

Species 1: Fig. 6

Species 2: Fig. 12

Species 3: Fig. 17

Species 4: Fig. 22

Species for the Surgical Fastener:

Species I: Fig. 1

Species II: Fig. 2

Species III: Fig. 3

Species IV: Fig. 4

Species V: Fig. 5a

Species VI: Fig. 5b

Species VII: Fig. 16

Species VIII: Fig. 21

Species IX: Fig. 26

Species for the Surgical Filament:

Species A: Mesh

Species B: Ribbon

Species C: Strip

Species D: Wire

Species E: Net

Species F: Thread

Species for the Cutter for cutting the filament:

Species a: Blade

Species b: Hot wire

Species c: RF generator

Species for the Ejecting Mechanism:

Species i: Spring mechanism

Species ii: Hydraulic mechanism

Species iii: Pneumatic mechanism

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

Art Unit: 4166

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner:

Species 1: Claim 23

Species 2: Claim 25

Species 3: Claim 26

Species 4: Claim 24, 27

Species I: Claims 9-12

Species II: Claims 9-12

Species III: Claims 9-12

Species IV: Claims 9-12, 13

Species V: Claims 9-12, 14, 17-18

Species VI: Claims 9-12, 14, 17-18

Species VII: Claims 9-12, 20

Species VIII: Claims 9-12, 15

Species IX: Claims 9-12

Species A: Claims 5-6

Species B: Claims 5-6

Species C: Claims 5-6

Species D: Claims 5-6

Species E: Claims 5-6

Art Unit: 4166

Species F: Claims 5-6

Species a: Claim 3-4

Species b: Claim 3-4

Species c: Claim 3-4

Species i: Claim 2

Species ii: Claim 2

Species iii: Claim 2

The following claim(s) are generic: Claim 1 is generic.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

The claims within each respective species do not contain the same special technical features as the claims of the other respective species.

In addition, the claims among the species are mutually exclusive as indicated within the disclosure.

4. A telephone call was made to Mr. Gary Nath on September, 25, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

Art Unit: 4166

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SON DANG whose telephone number is (571)270-5809. The examiner can normally be reached on Monday-Friday 7:30 AM - 5:00 PM EDT.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ken Bomberg can be reached on 571-272-4922. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
